Re: European Union REACH Directive and PolySol LLC products.

This letter provides information regarding the European Union (EU) Directive covering the Registration, Authorization, and Restriction of Chemicals (REACH) Candidate List of SVHC Annex XIV materials and the PolySol products shown in Table 1 below.

Based on the information provided to PolySol by its raw material suppliers and our formulation review, we have found that these products do not contain SVHC Candidate list/Annex XVII materials above the applicable threshold (0.1%) as updated by the European Chemical Agency as of June 27, 2018. The current candidate list of SVHC substances can be located at <http://echa.europa.eu/candidate-listtable>.

Please note we do not routinely test for these materials. We certify that we do not intentionally add or use these restricted substances in the manufacture or handling of these products.

If you have any questions regarding the above information feel free to contact your PolySol representatives listed below.

Sincerely,

Joseph Mueller
